John R. Bell II

Curriculum Vitae

John Bell is the President and founder of JB Aviation, LLC ("JBA") located in Wichita, Kansas. His background includes 34 years of experience in corporate aviation.

JBA is a Cessna Citation Service Provider and Aviation Consultant company that has been supporting their clients in the United States and International since 1998.

JBA offers a broad range of services which include Aviation Department Development, Professional Pilot Services – Domestic and International, Ferry Services, Short-Term Aircraft Management, Aircraft Cost Analysis, Aircraft Evaluations and Deliveries, Aircraft Systems and Crew Training, and SOE/IOE training requirements.

Mr. Bell's interest in aviation started back in 1972 while attending a Private Pilot Ground School course at Palomar Community College in San Marcos, California. He later received his FAA Private Pilot ASEL license in the summer of 1973. In June of 1973, Mr. Bell enlisted in the United States Air Force as an Avionics Weapon System Specialist on the F4 C/D Phantom II fighter aircraft and served for just over 4 years. While in the Air Force, he obtained his FAA Commercial and Instrument ratings. In February of 1978, Mr. Bell passed his FAA CFI checkride and started instructing Private Pilot Students part-time with a Las Vegas FAA Part 141 Flight School. He later obtained his FAA Multi-Engine Land (AMEL), Single-Engine Sea (ASES), CFI Instrument and Multi-Engine ratings. During the two plus years instructing, he logged more than 2000 flight hours and recommended over 25 applicants for their FAA checkrides. He currently holds a CFI Gold Seal certificate. Courses included Private, Commercial, Instrument, Multiengine, Seaplane, Airline Transport Pilot and CFI (Certified Flight Instructor).

In August 1980, Mr. Bell turned to Business Aviation flying and operated a Piper Seneca II, Cessna 421 and a Turbo-Commander 690B. In July 1983 until December 1983, he served as a Captain on a Piper Chieftain (PA31-350) with an Air Taxi 135 Operator flying Grand Canyon Scenic Routes. Later that year he returned to Business Aviation which brought him to Arkansas.

From January 1983 until August 1985, Mr. Bell served as Chief Pilot on a Piper P Navajo (PA31P) and as an Account Executive which included managing and negotiating contracts with non-profit organizations. The company decided to sell the aircraft as they could not justify the cost.

In September of 1985, Mr. Bell was contacted to recommend an aircraft for a startup LTL trucking company located in Northwest Arkansas. The company purchased a Piper Cheyenne II (PA31T) and he was hired as Chief Pilot and later as Chief Pilot of Corporate Travel and Flight Operations. He was the first pilot employed by the company and was instrumental in developing the flight and travel department. The company later purchased a second Piper Cheyenne II and later increased their staff to nine employees. In August 1994, the company expanded its territory and the decision was made to exchange the Piper Cheyennes for a Cessna Citation II (C550) and a few months later a Citation CJ (C525). Besides flying throughout the forty-eight states the Citations expanded flights that included Canada, Mexico and Puerto Rico. In 1997, the company flew over 950 hours, issued under 3,000 airline tickets totaling more than one million dollars, and operated within a department budget just over three million dollars.

From 1987 to 1995 Mr. Bell also conducted a number of Private Pilot Ground School Classes and Flight Training in the region.

Mr. Bell's background experience since 2000 has included a number of international ferry flights with North Atlantic and Pacific crossings. He has supported a number of operators in Indonesia, Malaysia and South Korea. The support he has provided includes qualifying their crewmembers (IOE/SOE) to meet their Air Taxi requirements as per Civil Aviation Authority (CAA) and qualifying their Flight Attendants.

Aircraft Evaluations including Pre and Post Maintenance flights and aircraft consultations have been services Mr. Bell continues to perform.

As a member of NBAA's Cessna 500 Technical Committee, he visits and meets with a number of Citation owner/operators discussing their issues with their aircrafts. The committee also meets with Cessna Aircraft twice a year discussing customer concerns and the concerns of Cessna Aircraft.

Personal Information:

Date of Birth:	1952, Augusta, Maine
Military Service:	United States Air Force (Honorable Discharge)
Marital Status:	Widow, two children and three grandchildren
Residence:	Wichita, Kansas

Career Summary:

January 1998 – Present
President
JB Aviation, LLC,
Cessna Citation Service Provider and Aviation Consultant

February 2005 – February 2006
Cessna Citation VI Line Captain – FAR135 Air Taxi
Lanmar Aviation

September 1985 – September 1998
Chief Pilot
American Freightways, Inc.
Corporate Flight and Travel Operations

December 1983 –September 1985
Chief Pilot and Account Executive
Corporate Flight Operations and Account Executive Telemarketing

July 1983 – December 1983
Line Captain
National Executive Airlines
Air Taxi Operator Grand Canyon Air Tours

July 1980 – May 1983
Chief Pilot
Gulf Pacific, Inc.
Corporate Flight Operations

September 1978 – July 1980
Senior Flight Instructor
Terra Training
Pilot Training Courses, FAA Private Pilot through Airline Transport Rating including Multi-Engine and FAA Certified Flight Instructor (FAA Approved FAR 141)

July 1973 – September 1977
Avionics Technician
USAF
Weapons Control System Specialist

Pilot Qualifications:

Airline Transport Pilot
Airplane Multi-Engine Land

Commercial Pilot
Airplane Single Engine Land
Airplane Single Engine Sea

Flight Instructor (FAA CFI) *GOLD SEAL*
Airplane Single and Multi-Engine
Instrument Airplane

Aircraft Type Ratings
Cessna Citation, C500 Citation I, Citation II, Bravo, S/II, V, Ultra, Encore and Encore+
Cessna Citation, C525(s) CJ, CJ1, CJ1+, M2, CJ2, CJ2+, CJ3, CJ3+ and CJ4
Cessna Citation, C560XL XL, XLS and XLS+
Cessna Citation, C650 III, VI and VII
Cessna Citation, C680 Sovereign, Sovereign+ and Latitude

FAA Pilot Rating Year Obtained

FAA Student Pilot	ASEL	February 13, 1973	
FAA Private Pilot	ASEL	June 19, 1973	FAR Part 141
FAA Commercial (Limited)	ASEL	January 4, 1975	FAR Part 141
FAA Instrument (Airplane)		August 19, 1977	FAR Part 141
FAA CFI- Airplane	ASEL	February 8, 1978	FAR Part 141
FAA Single Engine Sea	ASES	March 9, 1978	FAR Part 141
FAA CFI- Instrument		November 27, 1978	FAR Part 141
FAA Multi Engine land	AMEL	April 13, 1979	FAR Part 141
FAA CFI- ME	AMEL	March 25, 1980	FAR Part 141
FAA ATP	AMEL	July 14, 1983	FAR Part 61

FAA Programs:

FAASTeam Representative (Formerly FAA Accident Prevention Counselor)

Synopsis of Flight Time (Hours):

Total Time:	17,000+
Pilot-in-Command:	16,000+
Multi-Engine:	13,000+
Turbojet:	7,000+
Turboprop:	4,000+

Safety Awards:
NBAA Corporate Business Flying Safety Award JB Aviation, LLC (18 Years)
NBAA Pilot Safety Award 16,000 Hours
Commercial Business Flying Safety Award
Arkansas Aviation Safety Counselor Award
FAA Aviation Safety Counselor of the Year Award 1997 (Southwest Region)
FAA Pilot Proficiency Award Program Phase XI
